

Centennial, CO (9/7/2009) - This Labor Day weekend The HealthCare Initiative reaches a milestone as it celebrates its 35<sup>th</sup> year in business. Since first opening its doors in 1974 under the name of Management Recruiters of Colorado, The HealthCare Initiative has consistently been ranked among the top executive search firms in the country. Today, The HealthCare Initiative specializes solely in the recruitment and placement of high performing healthcare professionals across the United States and North America. As evidenced by the 500+ leading healthcare professionals The Healthcare Initiative has placed since 2001, THI has truly become one of the most successful healthcare recruitment firms in the nation.

“Our firm has deep existing relationships with many key influential healthcare leaders. Most of these relationships have been ongoing for decades” says Sean Milius, current President and CEO of The HealthCare Initiative and a third generation owner of the firm. “We’ve been cultivating these relationships and expanding out network since the 1970’s. In the world of executive search, it’s all about who you know, and nobody has a deeper network than our team at T.H.I.” adds Milius.

The celebration was marked with anniversary festivities throughout the day Tuesday at T.H.I.’s headquarters in Centennial CO. The highlight of the celebration was a surprise visit by the company’s founder, Daryl Milius. Now 86, Milius has seen his fair share of recruiting firms raise and fall. “The longevity and sustainability of Management Recruiters of Colorado, now T.H.I., is very impressive. Not many firms can say they’ve done business for 4 decades” comments Milius. “And to watch the recent success of the firm only gives me a highly optimistic outlook for the future. This group seems to get better and better each year.”

*The HealthCare Initiative is a leading executive search firm specializing in the recruitment of hospital leadership. By partnering with many of the country’s premier healthcare providers, THI has the inside track to helping that medical executive advance their career.
